(c) by when, the final figures of the population are likely to be available?

THE MINISTER OF STATE IN THE MINISTRY OF HOME AFFAIRS (SHRI I.D. SWAMI): (a) and (b) Yes, Sir. The provisional total population for India as per the recently conducted Census of India, 2001 was 1,027,015,247 consisting of 531,277,078 males and 495,738,169 females.

(c) Final figures of Census of India, 2001 are likely to be available by the end of 2002.

Rural Electrification during 2000-2001

*568. SHRI BRAHMAKUMAR BHATT: Will the Minister of POWER be pleased to state:

(a) the rural electrification done during 2000-2001, State-wise;

(b) the target fixed for rural electrification for each of the states during the above period;

(c) the gap between the target and completion of work; and

(d) the steps taken to streamline the electrification in the rural and tribal areas?

THE MINISTER OF POWER (SHRI SURESH PRABHU): (a) The State-wise details of the number of villages electrified during the year 2000-01 are given in Statement-I. (*See* below)

(b) Planning Commission has not finalised the targets for rural electrification for the year 2000-01. However, the targets fixed for States under Twenty Point Programme in respect of village electrification for the year 2000-01 is given in Statement-II. (*See* below)

(c) The priorities for execution of work relating to Rural Electrification programme are determined by the State Governments/ Power Utilities who own and operate the distribution system in the States, as per the policy and directions of the State Governments and also as per the availability of the financial resources.

(d) The steps already taken by the Government to streamline the electrification in the rural and tribal areas include release of funds under Minimum Needs Programme (MNP) directly to the States as part of Normal Central Assistance from the year 2000-01, instead of the earlier practice of funds being routed through REC. Funds are also being provided for augmentation of distribution networks in rural areas under the Accelerated Power Development Programme (APDP). In addition, Rural Electrification Corporation (REC) is financing investments in the areas of System Improvement and Pumpset Energisation.

The Finance Minister, in his speech while presenting the budget for 2001-02 has announced the launch of a package of incentives to improve the power distribution system in rural areas. This includes completion of electrification of bulk of the remaining villages in the next 6 years; extension of assistance to the States for village electrification works under the Prime Minister's Gramodyog Yojana (PMGY) whose funding is being augmented; stepping up credit support from Rural Electrification Corporation to SEBs for speedy electrification of *dalit bastis*, households of scheduled tribes and other weaker sections of society; improving the quality of power supply in villages, augmentation of distribution networks in rural areas supported by REC under the APDP; earmarking a sum of at least Rs. 750 crore out of the Rural Infrastructure Development Fund (RIDF) for rural electrification works and augmenting the resources of REC, by allowing it to float capital gains tax exemption bonds along with NABARD and NHAI under Section 54 EC of the Income Tax Act.

Statement-I
